# Parth Parmar

**ReactJs Developer**

Surat, Gujarat • +91 93769 96840 • m2parthparmar@gmail.com • linkedin.com/in/parth-r-parmar • github.com/parth-r-parmar

## WORK EXPERIENCE

**AlgoScript Software Pvt. Ltd., Surat | 07/2021 – 08/2023**

- During my tenure at AlgoScript Software Pvt. Ltd., I contributed to two significant projects.

- Firstly, with Factile, I developed an online trivia game platform that empowered users to design game boards, select game types, and engage with friends or online opponents. I efficiently managed REST APIs in MoleculerJS, addressing over 50 issues and optimizing app performance, resulting in a remarkable 30% reduction in load time.

- Additionally, I played a key role in creating an admin panel for Sam aclaro AI, incorporating widgets such as sticky notes and notifications. I implemented forms with validations and tables to showcase dealers, offers, and sales reports.

## EDUCATION

**Veer Narmad South Gujarat University, Surat, Gujarat**

- Bachelor of Computer Application | 6/2018 – 4/2021 | 7.72 CGPA

## SKILLS

- **Version Control:** Git, GitHub
- **Languages:** JavaScript, HTML, CSS, SCSS
- **Libraries And Framework:** ReactJs, Redux/Redux Toolkit, Bootstrap, MaterialUI
- **Databases:** MongoDB

## PROJECTS

**Factile**

- Implemented Redux to achieve an impressive 45% improvement in application performance and utilized React.js to construct reliable components for a user base of over 1.6M.
- Effectively managed REST APIs in MoleculerJS, resolving more than 50 backend issues.

**Sam aclaro AI**

- Created an admin panel featuring widgets like sticky notes and notifications for a car dealer's website.
- Successfully implemented forms with validations and tables to showcase dealers, offers, and sales reports.
- Utilized persist reducer in Redux to retain filter keywords for remounted components.

## PERSONAL PROJECTS

**Site Uploader API (Node, Docker, Nginx)**

- Developed a Node application utilizing Multer for efficient management of site zip file uploads, extraction, and storage.
- Configured Nginx to provide a subdomain and handle control transfer to the extracted folder containing index.html.
- Effectively utilized Docker to fetch and employ the Nginx image.
